# TMI & TMS SYNERGY

## The Lab School Advantage

### Why are TMI teachers-in-training prepared to go beyond?

TMI student teachers pictured here, support TMS students during weekly Skipping Club. Their support of Extra-curricular activities within the Lab School prepares them to support students outside of the formal classroom context. This prepares them for their role as teachers, as it extends beyond the classroom and contributes to the school community as a whole.

### Conflict Resolution

A TMI student teacher takes part in an interactive exchange with TMS students, guiding them to practise their playground citizenship skills. Recess is an important time for socialization and learning key conflict resolution skills. Students, young and old, work together to ensure varying perspectives are heard and we all find solutions together.
