## WHAT'S NEW AT TMI

### CLASSROOM MANAGEMENT PANEL

Administrators and teachers from the Montessori Community came together to offer TMI students their pearls of wisdom during the Annual Classroom Management Panel. They shared their personal experiences as new teachers and how they have changed and grown as they have spent more time with the children in their classrooms and in their schools. TMI students found their insights informative, diverse and honest, as the panel members reflected the reality of the classroom beyond the materials. The students also realized that their own lifelong journey to become a successful teacher will be as individual as they are. The core message was to serve the child and approach teaching with openness, humility, and of course, humour.
