

The Toronto Montessori Institute Proudly Presents Its New Logo ...

This new logo captures the TMI/TMS Lab School approach in which TMI students learn by being part of a fully-functional flagship Montessori school (TMS School). This practical approach is supported by an experienced, welcoming faculty and staff who are committed to student learning. TMI offers a progressive educational environment in which students are recognized as individuals. Students are actively engaged in their learning, preparing them to meet the requirements of an evolving career in Montessori education. TMI's proven method is widely recognized and internationally accepted. We are proud of this new logo and the legacy it reflects.
